## Official Diary

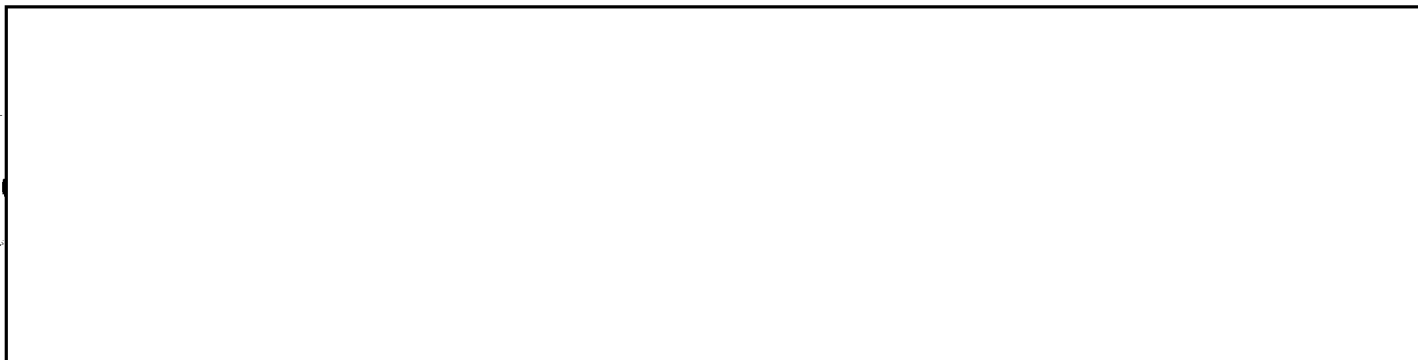

Friday, 14 December 1951

Col. Hansen reported that he had been successful in his negotiations with Fulton Lewis. He had learned that two columns had been contemplated, rather than one as previously reported, and reference to CIA would be deleted from both. Col. Hansen reported also that Mr. Lewis' office had checked with the McCarran Committee office and had been informed by the latter that CIA had always been cooperative in such matters. I suggested to Col. Hansen that his report on this should include his recommendation that the [redacted] of O/O, which had uncovered the column, should be commended.

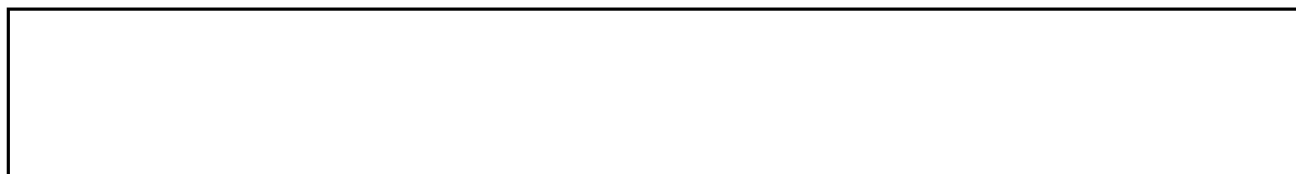

25X1

Attended USCIB meeting.
